The Master of Management Studies (MMS) degree provides entry-level business skills to students with little to no prior career experience. The MMS curriculum covers 15 business courses—a total of 43 credit units.

Two MMS program formats are available: the Foundations of Business program and the Duke Kunshan University program. Both programs take approximately 10 months to complete.

Program Overview
Students in both programs begin at the same time on Duke’s campus in Durham, NC, to enhance opportunities for networking. Later in the year, while students in the Foundations of Business cohort remain in Durham to complete their degrees, the Duke Kunshan University cohort will travel to China for the final terms and graduation.

Admission
It is important that you understand which MMS program is the best fit for your interests and goals, before you apply. Connect with our admissions counselors who can help you determine which MMS program is the right fit for you.

- Your admission to one program cannot be transferred to the other.
- You cannot switch programs while you are a student.
**MMS: Foundations of Business**

This program provides a jumpstart into the business world and a leg up on the competition. Students can choose to participate in an optional China Travel Experience (CTE) as an opportunity for exposure to another key player in the game of global business.
