Student Testimonials - Nicaragua

I loved this opportunity to travel to Nicaragua and work first-hand with the local entrepreneurs. Excellent program!
I really enjoyed my experience working with Clinica del Pie. Although there were several late nights and our problem was not an easy to solve, it gave me an opportunity to apply the skills I had been learning in class into practice. Combining the cultural aspect with a tangible mission and project was exactly what I was looking for and I hope that this program will only continue to grow.
Student Testimonials - Africa

GCP allowed me to bring my MBA education into a real world scenario where there were no known answers, just more questions. The practice of developing and assessing a new venture was phenomenal. Additionally working with South Africans and developing an understanding of the country just in the two weeks we spent there made the trip all the more fascinating.
Student Testimonials - Africa

I specifically chose to attend Fuqua in order to participate in projects around the world where I could make an impact. GCP provided me with this opportunity.
Student Testimonials - Africa

This course provides a great opportunity to learn and grow in the complexity of the real world.
